

City of Fellsmere General Service Planning, Design and Administrative Services

Addendum #2

REQUEST FOR PROPOSALS

1. Question: If the response is for two different disciplines (e.g., firm performs both Civil Engineering and Survey services), do we need to provide 2 separate submittals, or just reference in the document that we are responding to both?

ANSWER: If the responding firm is interested in submitting a response for different disciplines, a single response needs to clearly reflect both disciplines.

In the alternative, a firm may submit separate responses (one for each discipline) in order to maximize available page count.
