THE MURPHY ACT

From Will Collins
County Attorney
Indian River County

In the 1930's, during the depression, large acreages of land vested in the State of Florida due to unpaid taxes. Title was vested in the Board of Trustees of the Internal Improvement Trust (that is the Governor and Cabinet sitting as the Board of Trustees). In 1937 the State Legislature passed Chapter 18296, Laws of Florida, 1937 (often referred to as the Murphy Act) which required that whenever the Board of Trustees sold these lands acquired for unpaid taxes, they must retain certain oil and mineral interests as well as a reservation of right-of-way 100 feet on either side of the centerline of any state road.

Thousands of deeds were issued with the Board of Trustees of the Internal Improvement Trust Fund as grantor subsequent to the 1930's. Virtually all of these deeds (along with reserving certain oil and mineral rights) reserved unto the State of Florida 100 feet of right-of-way on each side of the centerline of any state road existing on the date of the deed.

Many roads under the jurisdiction of the State in the 1930's, 1940's, 1950's, 1960's, etc. have been transferred to County jurisdiction. As successor in interest to the jurisdiction over these roadways, the County was also successor to the reservation of the Murphy Deed road right-of-ways.

The Supreme Court of Florida in the case of Laird vs. The State Department of Transportation, 465 So.2d 486 determined that a state road existed when designated by the Legislature. The State Legislature periodically designated and established certain highways. Such designations of state roads were made in 1931, 1941 and 1955.

If land was put back onto the tax roll by a "Murphy Deed" from the State, those deeds contained the reservations of road right-of-way. Certain of the tracts of land conveyed by the State (but not all) would be within 100 feet of roads designated as state highways. Now, when the County is undertaking road-widening projects, it knows that certain properties have Murphy Deeds in the chain of title, and purchase of the property is not required since the road right-of-way easement is reserved in the Murphy Deed

WGC/nhm

SURVEYOR'S REPORT

OVERVIEW OF THE MURPHY ACT RESERVATION AND RELEASE MAP

The Murphy Act Reservation and Release Map depicts the boundaries of the Murphy Act State Road Reservations and subsequent releases located within Indian River County. The purpose of the map is to identify those properties affected by Murphy Act reservations or releases. This map does not represent a survey of the Murphy Act reservations or releases.

HOW MURPHY ACT RESERVATIONS AND RELEASES WERE CREATED

Murphy Act reservations were created as 100-foot wide reservations lying on either side of the centerline of state designated roads. The reservations are based on the location of the centerline of the road at the time of reservation. Additionally, reservations occurring after 1944 were only applicable to roads lying outside of a municipal boundary.

There are eight authorizing acts:

1. Chapter 20276 (1939 Laws of Florida)
2. Chapter 20326 (1941 Laws of Florida)
3. Chapter 20593 (1941 Laws of Florida)
4. Chapter 23836 (1947 Laws of Florida)
5. Chapter 23839 (1947 Laws of Florida)
6. Chapter 23843 (1947 Laws of Florida)
7. Chapter 23843 (1949 Laws of Florida)
8. Chapter 25073 (1949 Laws of Florida)

The language creating the reservations was placed in state land deeds following the passage of the first authorizing act in 1939.

As land affected by reservations was bought and sold, land owners requested that the road reservations on their land be released by the State. In many cases releases were granted by the Trustees of the Internal Improvement Trust Fund (TIITF).

The reservation language appeared on many deeds for land that was not adjacent to state designated roads. The reservations had no real affect on these parcels. To remove the reservation as a title concern many owners of these parcels petitioned for and were granted releases. This created releases where no real reservation existed.

SOURCE DATA USED TO CREATE THE MAP

Source of Murphy Act Reservations

Murphy Act reservations identified in the report titled "State

Designated Roads and Applicable Murphy Act Road Reservations for Indian River County, Florida," dated March 15, 1995 and revised on November 1, 1997, by Atlantic Coastal Title Corporation (ACTC) are depicted on the map. The ACTC report contains abbreviated property descriptions of the land affected by each reservation. The abbreviated descriptions were used to map the road reservations.

Centerlines Used for Mapping Reservations

Indian River County provided information on the location of historic centerlines for many of the roads within the County. Where available this historic information was used to position the road centerlines. For roads where this information was not available, the centerline of the existing pavement was digitized from digital aerial photography provided by the County.

Reservations in Municipalities Not Mapped

Reservations that occurred after 1944 are exempt from the Murphy Act if, at the time of the reservation, they fall within a municipal boundary. Reservations that occurred after 1944 that fall within one of the County's four municipalities are not mapped.

Municipal boundaries shown on the map were provided by the County.

Source of Releases of Reservations

The boundaries of release documents provided by Indian River County are shown on the map.

Base Map Used to Create Reservation and Release Map

The Indian River County Property Appraiser's digital parcel map was used as the base map for the reservation and release map. The locations of land parcels, roads, canals, Public Land Survey System lines and other cadastral features shown on the reservation and release map were created by the Indian River County Property Appraiser. Nick Miller, Inc. did not verify the data provided by the Property Appraiser.

The Property Appraiser provided the digital parcel map to Nick Miller, Inc. on September 5, 2001. The spatial accuracy of the reservation and release locations is equivalent to the spatial accuracy of the Property Appraiser's digital parcel map.

Following is the coordinate system used for both the base map and the reservation and release map:

Coordinate System: State Plane Coordinate System of 1983
Zone: Florida East Zone
Linear Unit: US Survey Foot
Datum: North American Datum of 1983

DATA STRUCTURE

Data Structure of Reservations

Each reservation was created as an AutoCAD block with attributes. To facilitate documentation of the reservations, the following attributes are assigned to each reservation block:

- TIITF Deed Number
- Deed Book Number of the Murphy Reservation
- Deed Book Page Number of the Murphy Reservation
- Date of Reservation Deed
- Depth of the Reservation

The reservations are also provided to the County in ESRI's Shapefile format.

Data Structure of Releases

Each release was created as an AutoCAD block with attributes. To facilitate documentation of the releases, the following attributes are assigned to each release block:

- TIITF Deed Number
- Date of Release Deed
- Depth of the Release

The releases are also provided to the County in ESRI's Shapefile format.

PREPARER
